

AVKOPACK® 1505**CHARACTERISTICS**

Gland packing with guaranteed quality manufactured from high technology raw materials and yarns using up-to-dated production technology.

AVKOPACK® 1505 is braided from Glass fibers. Special impregnation help it to have extreme abrasive resistance.

APPLICATION

AVKOPACK® 1505 is specially produced for wire industry for polishing and cleaning the surface of wires.

ADVANTAGES

Due to the extreme strength and abrasive resistance of the yarn AVKOPACK® 1505 is the best product for cleaning and polishing the wire, holding longer time than ever other products on abrasive application. Glass in the core gives temperature resistance and make the packing rigid enough for very good application.

TECHNICAL PARAMETERS

Working temperature:	-100 °C / +280 °C shock short temperatures 600 C
Density	1,71 g/cm ³
Weight for dimension 25x25	1,07 kg/m
pH:	2 – 12
Standard dimensions:	from 8 x 8 mm to 25 x 25 mm

HEALTH HAZARD INFORMATION

No harmful effects ascertained.

The information listed in this technical data sheet is based on our company's trials and experience. AVKO jsc is not to be held responsible for poor installation or application in media combining complexity of factors whose total exceeds the general qualities of the product. Our technical and sales representatives will assist any client in need of a product with a peculiar application.
